Meeting 5

Nikhil John

Deliverable

- Implement function to create slider

Methodology

- https://dash.plotly.com/dash-core-components/rangeslider
- https://www.youtube.com/watch?v=Zvz2LpziQAs&t=305s

Epoch Slider

F7   O2   P4   F3   Fp1

```
app.layout = html.Div([
    html.Label('Epoch Slider'),
    dcc.Slider(
        id='Epoch Slider',
        marks={
            80.784: 'Fp1', #'Fp2'
            #80.784: 'Fp2',
            57.5511: 'F3',
            57.584: 'C3',
            3.86813: 'C4',
            3.86788: 'P4',
            -57.5511: 'O1',
            -57.584: 'O2',
            -80.784: 'F7' #'F8'
            #'F8': '-80.784'
        },
        step=None,
        min= -90,
        max=90,
        value = 8,
    ),
    html.Div(id='slider-output-container')
```
